

MYSELF

Hello readers, my name is Carlota and I'm a student of Ibaialde institute in Burlada. I'm fifteen years old, so now I'm in the fourth level of E.S.O, which is the tenth grade. **IBAIALDE** is a good school for me and for most of the students who study there because in general there aren't many fights and the teachers are very strict with the students.

Now I'm going to describe myself, my hobbies and my life because it's possible that you don't know me.

I live in Burlada with my parents in a flat. It is quite big and it has got three bedrooms, one for my parents, another one for my sister and the other for me. There are two bathrooms and one living room, where sometimes we have lunch.

My hobbies are listening to music, especially rock and pop, but I also like listening to classical music, when I want to relax I lie on my bed. I really love playing the piano and every day I have to play it for about one hour, but some days I can't, because I have a lot of homework and I go to English classes too, but I try to do it.

I like sports too, but the only problem is that I haven't got much time to practice them, but on the weekends I usually play football with my friends.

I've got one sister and her name is Helena. I get on very well with her; although she's still twelve years old. She studies in Ibaialde like me but in the first level of E.S.O.

At the weekends I like staying at home if I have to study more, also I like going out with my friends or staying in my street with them.

If I talk about food I must tell you that I like pasta and vegetables and I really hate meat. I think in the future I'm going to be a vegetarian person because I like fish more than meat and I usually eat vegetables in the meals.

My favourite subject at school is physical education because it's a funny class where I relax and I do exercises that are good for the

health and the body. On the contrary, I don't like Mathematics because they are very difficult for me and sometimes I don't understand the teacher.

I like going to the swimming pool with my friends in Burlada. Every day in the summer I go there but if the weather is bad I can't go.

In general I like my daily routine because I start school at eight thirty in the morning and I finish it at two thirty, so I have all the afternoon to do the things I like. But I don't like one thing; the way from my house to school is quite long and sometimes is very hard, especially when the weather is hot.

This is my life, do you like it? I think is very simple but I like it a lot.
